- 1 Supplied to Hochtief AG.
- 2 Supplied to Siemens-Bauunion GmbH, München [D]. To Bauhof AKB, Bludenz [A].
- 3 Supplied to Siemens-Bauunion GmbH, München [D].
- 4 Supplied to Siemens-Bauunion GmbH, München [D]. To Hoch-Tief, Bauunternehmung, Frankfurt/Main, for U-Bahnbaustelle Bf Westend [D] by 1987.

LIGHT RAILWAYS

Kabul-Darulaman Tramway

AFGL01

The following is a note from the 7 October 1922 edition of IE. - **New railways in Afghanistan** – It is understood that the first railway which will be opened will be between Kabul and Dar-ul-Aman, a distance of 6 miles. Engines and rolling stock have been collected at Kabul for the projection under the direction of the Italian engineers, and it is believed that these engineers will shortly begin the work of construction of the line. The suggestion is mooted of one paper that it would be better to make the line the kind of electric tramway and that Kabul might by such means of communication be linked up with other suburbs in due course.

Gauge: 2'6"

0-4-0WT	Hen	19680	1923	1
0-4-0WT	Hen	19681	1923	1
0-4-0WT	Hen	19691	1923	1

- 1 Supplied via Ferrostaal [D].
